

**SAMPLE  
PACKS**

# ShineMark's new TTR sample pack

Printed with ShineMark Offset Cold Transfer.

We have created a comprehensive range of sample packs in a range of cartons with visual impact. These packs allow you to test ShineMark's complete category of products.

As for example if you wanted to test ShineMark's near edge wax resin you would request the Near Edge Wax Resin Pack where you can test not only the B112, but the entire range of near edge wax resins and gain a greater understanding of ShineMark's offering.

Watch how we created our brand new sample packs using ITW's ICF Offset Cold Foil in partnership with Windles.
